AETNA PHARMACY PROVIDERS

2015 Aetna Medicare Part D formulary changes can affect your patients

Our Aetna Medicare Part D formulary has changed for 2015. As a result of these changes, some drugs may either:

- No longer be covered under Aetna Medicare plans
- Have a utilization management requirement

Please visit Aetna's Medicare website at the URLs below to view the 2015 formulary.

- Individual plan formulary:
http://www.aetnamedicare.com/plan_choices/rx_find_prescriptions_2015.jsp
- Group plan formulary:
http://www.aetnamedicare.com/group/find_plans.jsp?tab=2

We update these documents monthly. They contain the most recent formulary information.

Formulary changes during the plan year

Our formulary may change during the plan year. If it does, we will notify members affected by the change. The notification will be at least 60 days before the effective date of the change. These changes may include:

- Removing a drug from the formulary
- Adding/changing utilization management requirements
- Moving a drug to a higher cost-sharing tier

In addition, we will immediately remove a drug from our formulary and provide retrospective notice to members taking the drug if either:

- The U.S. Food and Drug Administration deems a drug on our formulary to be unsafe.
- The drug's manufacturer removes the drug from the market.

Please view our website for the most up to date version of the formulary.

Questions?

If you have questions, please call the Aetna Pharmacy Management Provider Helpline. The number is **1-800-AETNA RX (1-800-238-6279)**, TTY: **711**. Customer service representatives are available to help 24 hours a day, 7 days a week.

Thank you for continuing to serve Aetna plan members.
