MedImpact Healthcare Systems
Subject: Compound Processing

Dear Pharmacy,

We would like to inform you that as of October 1, 2014 Compound processing will be changing for Geisinger's Medicaid plan. All ingredients will be validated against the formulary and labeler list. Each ingredient must be a covered item or the entire claim will reject. In the Rejected Response, the fields REJECT CODE (511-FB) and REJECT FIELD OCCURRENCE INDICATOR (546-4F) will indicate ingredients that are not covered.

If pharmacy is willing to absorb the cost of the non-covered *labeler* ingredients, Submission Clarification Code (420- DK) of 8 – "Process Compound for Approved Ingredients" can be sent on the claim. SCC 8 will not override "Product not on formulary" rejections, and must be reviewed by the plan for prior approval.

If you have any questions concerning this notice, please contact a MedImpact representative at (800) 788-2949.
