## EmblemHealth Rx Coverage Now Includes Flu Vaccines

<b>Plan Sponsor:</b>	EmblemHealth	<b>Geographic Area:</b>	New York, NY								
<b>Effective Date:</b>	Immediately										
<b>Announcement:</b>	<p>The EmblemHealth City of New York prescription drug benefit, administered by Express Scripts, now covers both the flu vaccine and its administration. Approximately 700,000 City of New York members are covered for the flu vaccine under their pharmacy benefit, but these members will need to provide their ID cards at point of sale so claims can be processed correctly, avoiding time-consuming phone calls.</p> <p>If the member has diabetic coverage only, the pharmacist should ask for his/her EH medical/diabetic coverage ID card to process the flu vaccine claim.</p> <p>As a reminder when processing vaccine claims, the pharmacist should enter the Professional Service Code "MA" in field 440-E5, and the administration fee in the Incentive Amount Submitted field (438-E3). If the claim is submitted incorrectly, it may result in a reject of E5 (M/I Professional Service Code) and/or E3 (M/I Incentive Amount Submitted) with additional messaging.</p>
